Resisting Nuclear Madness and Militarism in the Pacific

The historic return to Hawaii of the peace sailboat **Golden Rule** and its Peace in the Pacific mission will be the focus of keynote speaker **Helen Jaccard**, **Veterans for Peace Golden Rule** project manager. The Golden Rule Project aims to re-create the 1958 voyage of the same sailboat which attempted to stop nuclear testing in the Pacific. Starting in California in July, the boat and crew will visit each Hawaiian island with the message that nuclear disarmament is possible. Traveling on to Guam and the Marshall Islands, the project intends to reach Hiroshima, Japan, for the 75th anniversary of the atomic bombing.
